JEB Carpentry's Environmental Policy is:

1. **JEB Building Services** will keep itself informed of legislation and codes of practice (Environmental Protection Act 1990) on environmental matters that are relevant in its operation, whether in the workshop or on site. It will endeavor to ensure that all of those covered by the legislation are aware of its requirements, are suitably trained and that they take all reasonable action to comply with its provisions.
2. **JEB Building Services** will, wherever practicable and consistent with the needs of the contract, use materials or products from sustainable sources.
3. Any environmental problems anticipated in or encountered with the carrying out of the contract in accordance with the client's instructions will be brought to the attention of the client and if necessary to that of any competent authority, with a view to finding a satisfactory solution.
4. In carrying out its operations, **JEB Building Services** will take all reasonable precautions to avoid damage to the environment or the creation of a statutory nuisance.
5. **JEB Building Services** will make every reasonable effort to ensure that workplaces are kept in a clean and tidy state and reduce the impact of noise and disturbance to the community.
6. **JEB Building Services** will ensure that raw material waste is minimal and will always endeavor to find ways of reducing or reusing it.
7. **JEB Building Services** has nominated the Proprietor as having overall responsibility for the review, development and implementation of its environmental policy. Supervision of this policy may require the additional nomination of competent persons, especially where site work is concerned.
8. **JEB Building Services** has a commitment to the continuous improvement of its environmental practices and will regularly review the environmental effects of its activities.

James Bray
The Proprietor
